DEPARTMENT OF ENERGY AND ENVIRONMENT
NOTICE OF FUNDING AVAILABILITY

Implementation of Trash Reduction Technologies

The Department of Energy and Environment (the Department) seeks eligible entities to implement structural controls that will remove trash from the Anacostia River and its watershed, typically trash traps, conduct education and outreach, and collect related data. Additional controls may be installed and maintained. The grantee will be required to maintain the controls on a regular basis, and collect and report data, during maintenance events. DOEE expects monitoring data to be collected at least four times per year, with data for each season. This is a three-year project with a three-year budget. The amount available for the project is approximately $195,000.00. This amount is subject to availability of funding.

Beginning 01/13/2017, the full text of the Request for Applications (RFA) will be available on the Department's website. A person may obtain a copy of this RFA by any of the following means:
